

# COLLAB KID

Take Home Activity

COLLABORATIVE  
for **CHILDREN**

## MAGIC ICE

### MATERIALS

Plastic Bowl

Water

Salt

Water Colors

### OBJECTIVE

Demonstrate "change of state" with your child by melting ice with salt.

### ACTIVITY

Put the water in the freezer and add a few drops of liquid watercolor. Make a prediction! What will happen to the ice once it is covered in salt? Once it's frozen, remove the ice from the freezer, shake table salt over the ice, and watch what happens.

### ACTIONS

The child observes, investigates, and discusses the characteristics of everyday objects.
